Re: Notice of File Closure for Small Mining Activities, Alta United Mines, Bay City Tunnel,
S/035/014, Salt Lake County, Utah

Dear Mr. Blakemore:

This letter is to notify you that file #S/035/014, for the Bay City Tunnel project, located in Salt Lake County, Utah, will be retired from our files.

The site was inspected on November 4, 1999, and it was determined that mining activity is no longer occurring at this site. The site was permitted in 1993 because Alta United Mines was doing tunnel work, which is considered a mining activity. However, the tunnel is only being used to obtain water for municipal purposes. The Division will consider the post mining land use as municipal water development. The file can now be retired and closed.

You are hereby released from any further mining or reclamation responsibility at this site. You will not have to pay the \$100.00 permit fee as recently requested. If you wish to conduct any future mining related activity in this area, you will have to submit a new notice to the appropriate agency(s), pay the Division permit fees, and receive written approval(s) prior to creating any disturbance.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5310.

SALT LAKE COUNTY SERVICE AREA-NO. 3

KEITH J. HANSON
Operations Manager

Providing Water & Sanitary Services
to Snowbird and Little Cottonwood Canyon

Sincerely,

Lynn Kunzler
Senior Reclamation Specialist
